

## **EXPERIMENT – 2**

**Create a simple cloud software application for Flight Reservation System using any Cloud Service Provider to demonstrate SaaS.**

**AIM:** To create and provide a simple cloud-based software application for Flight Reservation System using Zoho Creator to demonstrate the Software as a Service (SaaS) model.

### **PROCEDURE:**

1. Open a web browser and go to Zoho Creator website.
2. Create a Zoho account and log in.
3. Click on Create Application and select From Scratch.
4. Choose Blank App and provide the application name as Flight Reservation System.
5. Create a form named User Details and add fields such as Name, Phone, Email and Address.
6. Create another form named Ticket Booking and add fields such as Name, Passport ID, Visa Number, Date, Time, Departure Location and Arrival Location.
7. Create a Sub form to select seating and add fields such as Class and Seat Type.
8. Mark the necessary fields as mandatory.
9. Save the completed form and alter the visual themes.
10. Configure user access and sharing settings to allow multiple users to use the application.
11. Save the application and generate the application URL.
12. Access the application through the URL using any web browser.

**OUTPUT:**

Flight Reservation System

## RESULT:

A cloud-based Flight Reservation System application was successfully created and deployed using Zoho Creator. The application is accessible through a web browser without installation, and users can Sign up and Book tickets online, thereby successfully demonstrating the Software as a Service (SaaS) model.
